Mr. Bill Burrows
709 Division Street
Gloucester City, N.J. 08030

Dear Mr. Burrows:

Please consider this letter confirmation of your reception of WBAP on 820 KHz on 3-21-86, from 11:25 P.M. to 11:51 P.M. EDT, and on 12-9-89, from 1:10 A.M. to 1:11 A.M. EST. WBAP operates on 820 KHz with a power of 50,000 Watts, 24 hours. The studio is in Fort Worth, Texas; the transmitter is in Mansfield , Texas. WBAP transmits from a 640 foot antenna tower. WBAP is an ABC network affiliate. We regret the lack of response to your earlier reports. It would probably help (at other stations as well) insure responses to enclose a self addressed envelope!

Sincerely,

Charles W. Staples
Chief Engineer
